

## Hoosier Puts Any Kitchen On a War-Saving Basis

"White Beauty"  
Adapted in Leading Magazine

THE kitchen is the real battleground in the war on waste. And the Hoosier Cabinet is the biggest factor in home defense. For America depends on her housewives to save their time and strength as well as food. Hoosier saves all three.

### Men Have Conveniences — Why Not Women?

Factories, offices and farms all have the most modern machines to save men work and time and do things better than in old-fashioned ways.

Then why not the home? Why should any woman do double the amount of kitchen work necessary?

The Hoosier cuts kitchen work nearly half.

It saves food by preventing waste in measuring and mixing and by keeping supplies in protected places. By providing places for 400 articles within arm's reach, it saves miles of steps.

### Accept One on Trial

We are the authorized Hoosier store and will deliver this cabinet for a small first payment.

Before-war prices are now offered on popular models. But wartime demand limits our supply.

To make sure of getting the model you admire most, come and pick it out without delay.

Harold Fradd of Hartford, Conn., a former student at Spaulding high school, has enlisted in the coast artillery, according to information received by friends in Barre. At present he is stationed at Fort Adams, Providence, R. I.

Paul A. Wells of Hardwick, who was arrested by Deputy Chief Gamble yesterday afternoon, appeared before Magistrate H. W. Scott in city court this forenoon and acknowledged an intoxication offense. In lieu of paying the nominal fine, the respondent elected the alternative jail sentence.

Gustaf E. Berg, of the granite manufacturing firm of Nelson & Berg, who was married in Montpelier a week ago, left yesterday for Charleston, S. C., where he is to report for duty in the Charleston navy yard. Mr. Berg enlisted in the naval reserve sometime ago, and has been awaiting a call to service.

William Mahoney arrived in the city last evening from Brookline, Mass., and this morning he enrolled as a student at Goddard seminary. Mr. Mahoney has played on the Brookline high school basketball team during the past two seasons and it is expected that he will be on the receiving line for the seminary nine Saturday afternoon when they are to meet the Norwich university basketball team. Many were present to hear the officers report on the record of the past year in Eastern Star circles, and much interest was manifested in the reports. The following officers were elected for 1918-19: Worthy matron, Miss Ena Adie; worthy patron, Arthur C. Tilden; associate matron, Mrs. Mary Mackay; secretary, Mrs. Alida M. Dunham; treasurer, Mrs. Lizzie M. Wood; conductress, Mrs. Florence Mackay; associate conductress, Mrs. Edith Tilden. The appointive officers are to be named by the worthy matron and her attendants and will be announced later. An installation of the elective and appointive officers will take place later in the month.

The Barre Historical society has received a very interesting gift from F. T. Cutler. It is a typewriter and the first one owned in Barre. The more than 30 years that typewriters have been improving since this little machine was made makes its construction seem very crude indeed, and to read the directions for its use it would seem to be not much more speedy than writing long hand, but probably was to one skilled in its use. The historical society has received fewer gifts this year than in any year since it was organized. The world is so busy making history to-day that people have little time to think of preserving its records, but if anyone has suitable articles which they will be willing to contribute they will be much appreciated by the society. Contributions may be left with Miss Wheelock, 145 North Main street, or Miss Tilden, 8 North street.

Joseph Kovalsky, who recently disposed of his real estate on Beacon street, returned yesterday from a business trip to Boston and Ayer, Mass. Mr. Kovalsky has secured an appointment as a regimental tailor at Camp Devens and will leave at the end of the present week to assume his new duties. He is to be attached to B company of the 301st infantry, and several assistants will be assigned to help him in a shop which the government is to provide in the cantonment. Mr. Kovalsky does not intend to abandon his business in the Eastman block, as he has engaged a tailor to take charge of the establishment during his absence. His family will remain in Barre. Mr. Kovalsky expects to pass a few days in Boston before settling permanently at Camp Devens, as he desires to purchase machinery to be used in the government tailor shop.

Luitpold Nuissl, an interior decorator of German origin, who was a prominent figure in Barre before and during the earlier days of America's participation in the war, arrived in the city yesterday and was promptly served with an abounding debtors' writ by Deputy Sheriff George L. Morris. The writ was in favor of a local hardware concern, which is pressing a claim of \$71 for paint alleged to have been purchased by the defendant. Nuissl was brought before a magistrate, and bail of \$100 was fixed for his appearance at a hearing April 29. The painter intimated that, according to the hardware concern, he would be settled before that date. Before leaving the city, he told the deputy that he was planning to stay with his brother in Berlin for a time. Nuissl states that he has been in Springfield, Mass., since he left here, an assertion which, together with his presence here in Barre, does not square in every respect with the story widely current here that he had been shot as a spy in Canada. A short time ago Nuissl was wanted by the Washington county local board, and a member of the board stated this forenoon that he is still wanted.

## Why Should You Buy Early

Last January we told you to buy for spring and save one profit. Now we tell you to buy for summer and save two profits. Just so long as this war lasts prices will continue to advance. Goods bought now for summer will give you a saving. Goods for next fall another saving. Goods one year from now will be half as much more as they are today. There is no guesswork about this. Remember this statement. We have several lots of goods that are today quite a bit under the market prices. Prices good only on these special lots.

### Bargain Basement

One lot of Misses' White Wash Middies. These only 49¢ ea. Remnants in our Basement.

New lot of Ready-to-Wear Millinery in our Millinery Department for Friday and Saturday. There is style to Ready-Made Millinery that you cannot get in home-made. It costs less and looks better. Omar A. Beardon and Homer W. Beardon, traveling salesmen for the George Stratton Granite Co., who have been passing several days in Barre while conferring with Mr. Stratton, left last night for their homes in Ohio. Each is assigned to different territory in the middle West, and together they are known among granite manufacturers, wholesalers and retailers, everywhere as the Beardon twins.

A regiment of Italian speaking soldiers is to be recruited, it is believed for service on the Italian front, according to a letter received here from Private Guy Ottolini, formerly a clerk in C. W. Averill & Co.'s hardware store, who enlisted in the medical corps at the outbreak of the war. Barre friends of Private Ottolini will be glad to learn that he is recovering steadily from an operation for appendicitis to which he submitted some weeks ago. While convalescing, he applied for a furlough in the expectation that he might leave his present quarters in Camp Beauregard, La., and revisit Barre for a few days. His application, however, was refused, with the explanation that efforts to recruit an entire regiment of Italian speaking soldiers would soon be gotten under way. Many of the recruits, it is anticipated, will be drawn from the draft quotas.

The repairs on the blacksmith shop now occupied as a garage by Townsend and Martin, recall the fact that the shop was built in 1871 by Albert R. Martin, Henry C. House being the boss carpenter. The building which was torn down at that time was a smaller one-story structure, which was put up in five days in 1844, when the shop owned and occupied by Capt. Milton Martin was burned. This site has been used for blacksmithing since the time of Elias Work, father of Lyman A.
